FROM THE PRINCIPAL

NAPLAN Results
Students in Grade 3 and 5 who undertook NAPLAN testing this year will be given their results this week. The NAPLAN result sheets are designed to give you an indication as to how your children have performed in the NAPLAN testing in relation to expected benchmark levels in numeracy, reading, writing and language conventions. While the school will use this data to help inform directions for teaching and learning, the data is only a snapshot of your child’s learning. It is possible that the results may differ greatly from your child’s mid-year report results. Please take time to read these reports and talk to your child’s class teacher if you are uncertain about them, or concerned about their progress.

Later this year, our school has been selected to trial the new online NAPLAN tools. These tools are being developed as a way of delivering tests in the future so that testing is tailored to more closely suit the ability levels of the students, and therefore give the school more accurate and more timely feedback. If you would like to read more about NAPLAN testing, please go to http://www.nap.edu.au/naplan/naplan.html
